Sir,

Please don't build walls of syuabus for learning. you taught us deeper learning. But it has no worth if there is no chance for sharing. It would be better if knowledgeable & understandable knowed persons like you take a step forward & Give us a chance for innovative ideas. As I believe every student in our department has his own idea & has and has an burning passion to work on it but we need your help in bringing out wonderful ideas & to facilitate us with your incredible knowledge & make our dreams come true.

I just spare an hour in your schedule come to our classes speak with us. let us share our innovative ideas with you. If possible we can form groups to work on them & if those ideas are really good we can publish or make an expo. I feel this is real learning with satisfaction.

Hoping you consider this

Thanking you.

Sir,

Subj: Requesting you to start initiative on
Public Speaking skills.

My deepest concerns for you - We are obliged by the initiative of "GATE" coaching, but we see public speaking skills are also important for a bright career, because the world will consider us as an futile person if we don't speak. "MEA" activities really have a remarkable impact on our speaking skills, but unfortunately very few amount of students are showing interest in it, reasons might be unknown but everyone is not pushing themselves forward into it. So we thought a "MANDATORY PUBLIC SPEAKING" idea will help everyone to excel the skill of speaking. We have a plan to conduct public speaking everyday, but with out your support we cannot do it. As we ourselves, I cannot discuss the plan here, apologies for that.

Anticipating that "Public Speaking" will be taken into consideration and looking forward to discuss the plan.

THANK YOU SIR.

Your's obediently,
